

Toyota HZJ79 Fast Attack Vehicle (FAV)

Capital People 

Fast Attack Vehicle (Open-bed)

Tactical mobility combined with ballistic protection make the open bed FAV especially dedicated for peacekeeping and interposition forces in the area of low and medium intensity assymmetric conflicts. Fitted with suitable armament, the FAV can be easily integrated in almost any multi-mission task force.

- Troop and tactical logistics transportation in fighting areas in support to units in contact
- Long-range reconnaissance capability
- Escort of convoys
- Interception of enemy convoys
- Neutralization of isolated strongholds

Protection Level: Assault Rifle

The armored hull is fabricated from high-hardness armor steel providing protection for occupants and critical components from ballistic and blast threats while providing an open-bed logistics platform for intervention requirements.

STANDARD Features

Protection level	Assault rifle	Stanag 4569 / level 1
Steering version		LHD
Multi-layered ballistic glass		•
Engine & Battery protection		•
Runflat system		•
Protected fuel tanks		•
Fuel tank capacity:	180l	•
Fording (unprepared)		640 mm
Angle of approach		34°
Angle of departure		26°
Angle of banking		28°
Ramp over angle		30°
Ground clearance		240 mm
Gradient		50°
Turning cycle (diameter)		14,40 m

OPTIONAL Features

Intercom system	•
Siren	•
Flag staff	•
Electric winch	•
Search light	•
Strobe flashlights	•
Individual rear seats	•
Foldable windshield	•
Automatic extinguisher	•
Turret mounting provision	•
Rear weapon mounting provision	•
Provision for military radio HF/VHF/UHF	•
Provision for jamming system (ECM)	•

- Standard
- Optional

BASE VEHICLE: Toyota HZJ79 – 6-cylinder Diesel, 4.164 cc turbocharged, intercooled

Engine: Maximum Power - 138 kW (180 hp) – Maximum Torque 365 Nm @2250 rpm

Measurements: L5560 x W2136 x H2040 mm – Wheelbase: 3180 mm / Weight: 3800 kg

Photos and details are not contractual
