

Toyota HZJ79 Police APC (P-APC)

Capital People 

Toyota Police APC

The Carat Defense Toyota Police APC is the ideal low-cost platform for police action in urban and off-road environments. With a high level of armored protection and enhanced capabilities over rough terrain, the P-APC is the ultimate law enforcement tool.

The world-renowned reliability of the Toyota HZJ79, combined with a modern electronics and armor package, provides the ultimate security when law enforcement officials are in harm's way.

Protection Level: Assault Rifle

The armored monocoque hull is fabricated from high-hardness armor steel providing protection for occupants and critical components from ballistic and blast threats including DM51 grenades and anti-personnel mines.
